

MORNING APPEAL

FRIDAY, JULY 20, 1903

The "MORNING APPEAL" is the only paper in Carson publishing telegraphic dispatches and afternoon stock reports.

Livery and Feed Stable.

D. Circe has now a fine stock of fast and safe horses and new carriages and is prepared to furnish teams or single rigs at cheaper prices than any stable in the city. Horses boarded by the day, week or month and given the best of feed. A trial will give satisfaction, both as to the quality and price of services rendered.

One Thousand.

This is the name of a new compound made for beautifying the skin, probably called so because one thousand women out of every one thousand and one use it. It can be found no where in the State of Nevada except at Foster's drug store, he being the sole agent for the sale of the compound. No woman who has ever tried it uses anything else. It removes freckles, tan and all blotches and discolorations of the skin by putting the pores in a healthy state.

"The Pen is Mightier than the Sword."

Book keepers, clerks and letter writers should sample those new "anti-nervous" penholders, for sale by Cagwin & Noteware. Their use is guaranteed to prevent pen-patience, and enable a nervous person to write an even, legible hand. They are an improvement on the first patent, and are perfection itself.

Save Money.

Our idea of selling Carsonites cheap for cash works well. We now offer corn, green peppers, tomatoes, squash, cucumbers, new potatoes, peaches, pears, apricots, plums, oranges, coconuts, apples, blackberries and everything in the fruit and produce line at the prices the Carson dealers are paying at wholesale. H. G. May & Co., Fulton Market, Sacramento, Cal.

E. B. Rail has just received a large lot of goods from the East, consisting of fence wire, rope, hardware, crockery and glassware, also a large stock of fancy fishing tackle, lines, hooks, poles, etc. Guns and pistols. Drop in and see him.

Oleovich Brothers have special facilities for buying in the best markets and from manufacturers direct, for cash, are enabled to sell goods at lower prices than any of their competitors.

Prime groceries, teas, sugars, coffees, wines, hardware, Swiss cheese, Connecticut cider, at Muller & Schmitt's.

Fine Photographs at Peterson's Art Gallery. Views of private residences and public buildings a specialty.

For the best hand-sewed boots and shoes for men, women and children, in the greatest variety, go to Oleovich Bros.

Agricultural implements, garden hose, crockery, glassware, paints, oils and tinware at Rail's.

Bargains in acornshakers and chev-lot at M. Cohn's.

Bargains in grenadine at M. Cohn's.

Bargains in summer wraps at M. Cohn's.

Bargains in children's white dresses at M. Cohn's.

Bargains in straw hats at M. Cohn's.

Bargains in parasols at M. Cohn's.

Persons wanting good and cheap family groceries will find it to their advantage to call at Barclay's Grocery Store, at Cheaney's old stand, for family supplies.

THE TELEGRAPH STRIKE.

It Becomes General all Over the Country.

Yesterday morning the street quotations came over the wires as usual, but no quotations of the morning board reached the office. There was the usual gathering of persons interested in stocks and when they learned of the telegraph strike they walked away feeling certain that the Union cross cut would strike good ore and they not know it. Mr. Farrell exhibited the following dispatch:

SAN FRANCISCO — noon. — No stocks, no nothing.

He said that his last dispatch from there explained that a strike had taken place all over the Union and that there was but one man left in San Francisco to send dispatches. In Sacramento there were but two, the manager and his wife.

STRENGTH OF THE STRIKERS.

"I can only give you news regarding the strike," said the operator, "there are a few men left in the leading offices who keep up cypher communications regarding the strike."

"Can't the officers prevent that?" "Impossible; cypher too complete. For instance, if a man is ordered to send a business message, he can do so and send his cypher too and get word from the other man at the same time. One word fast and another slow means something. Three quick words and a pause or call to repeat, heavy or light work, all these quirks and turns of the key have their significance. The operator's cypher is better than the company's. It is all humbug, the talk about men staying by the company. The men who remain with the company have been ordered to do so by the strikers and this is to keep the strikers posted. Every main city of the Union now has a few men in the office for that purpose. This is the biggest strike ever entered into by the operators, and it means business. The Brotherhood has a hundred and fifty thousand dollars to make the fight and the money will be economically expended."

EXTENT OF THE STRIKE.

"What is the extent of the strike?" "All over the Union, I tell you. Seven hundred men quit work in New York this morning. There isn't a key sounding in Portland; not a click between Ogden and Omaha."

"Can you send a cypher dispatch over the wires now?"

"Nothing easier; operators have nothing to do but send cyphers."

"Call Omaha and find out how things are going there."

Inside of five minutes information was received that fifteen hundred night of messages were piled up there for transmission West.

Portland, Oregon was next called, but no response, and the news from New York was that the strikers had opened the ball in good shape and were confident of victory.

"The wires are working badly all over the United States," said the operator, "and the information that is being carried between the big cities keeps the strikers together. Several Nevada offices were not included in the strike, I don't know why. We were notified of the move some time ago, but have received no orders here to quit. Whenever the order comes we have to close the key and walk out. Here in Nevada there is no complaint of low wages and there will be no strike."

Justice Court.

In the Justice Court yesterday the case of Pixley vs. Fox was argued and submitted. Seymour Pixley brought suit against John G. Fox for carpenter work, claiming \$160. The defendant introduced as an offset the rent of a piano for fourteen months at \$10 per month, amounting to \$140. Pixley swore that the piano was for his daughter, who was of age, and that he was not responsible. The defense alleged that Mrs. Pixley ordered the piano and signed the contract and that Mr. Pixley took it away. The case was taken under advisement.

Superintendent Crawford yesterday received a letter from Hon. C. H. E. Hardin, in which the report is confirmed that he is to be married to Miss Ursula Mason on the 7th proximo. The wedding will be a very quiet one, only relations and a few intimate friends are to be present.

RICHARD DUSRU'S SUICIDE.

He Blows His Brains Out at the Arlington.

About 10 o'clock yesterday morning a noise was heard in the rear of the Arlington House which sounded like a pistol shot. It caused several people to look in that direction, but the matter was not thought of a few minutes later. About half past 1 o'clock a young boy came in and announced that there was "a man dead back there." Justice Cary, the proprietor of the house, went to the room where a man named French Dick, formerly a cook at the Arlington, had been sleeping, and found Dick lying half on the bed, with a six-shooter in his right hand, and blood coming from his mouth and the back of his head. He apparently had shot himself while sitting on the edge of the bed, as his feet were still on the floor. A jury was at once summoned, and on visiting the spot found that the ball had gone through the head, entering the month, and coming out back of the ear. The body was removed to Wright's undertaking rooms. The jury found that the deceased had come to his death by his own hand. His right name was Darrn, and he commonly went by the name of French Dick. He was for a long time a cook in the Arlington House, but threw up his situation on account of sickness about two weeks ago. He still took his meals at the hotel, and was allowed to sleep in the room where he committed suicide. Day before yesterday he told Mr. Cary that he was going to Virginia City, and gave no intimation of his contemplated act. He was incapacitated for work by sickness brought on by alcoholic indulgence.

The Water War.

The ranchers who are co-owners with Sweeney in the Kings canyon water right wish their side of the story published. They allege that the original decree gave Sweeney the right to sixteen one-hundredths of the water for irrigation and domestic purposes only and that he never had the right to run it down into Carson city to sell. After using all he was entitled to on his ranch he built a reservoir further down the stream and diverted at least twenty one hundredths more water than he was entitled to. This is what they object to, as it lessens their supply. He has been ordered by the court four different times to quit taking more than his share of the water and has been under arrest four times for so doing. On a previous occasion he was fined \$500 and the fine remitted. The ranchers now agree to sign a contract with Sweeney giving him sixteen one hundredths of the water to do as he pleases with. This water he can use for irrigation or sell without molestation. This gives him more right than the court allowed him. This will enable the city to be better supplied than now. After this matter is settled a petition will be circulated for a remission of his fine. The ranchers claim that they only want their rights and will do the fair thing to end the water war.

Whistling Fish.

One of the most singular of the fish family is doubtless the whistling snucker which is sometimes caught in Walker Lake. The fish when caught emits a plaintive whistle which will almost persuade an angler with any tenderness of heart to throw it back into the water. Charley Kimball has one which was caught in a net when quite young. He keeps it in a tank and has taught it to know him and whistle when it is hungry. When its master approaches the fish pushes its nose and mouth barely out of water, and making a pucker with its lips which the human pucker does not nearly equal whistles some shrill notes. It appears to have some of the parrot characteristics, and Kimball thinks that in time he can teach it to whistle part of some simple tune. — [Walker Lake Bulletin.]

A Prehistoric Pie.

The railroad restaurant on the C. and A. road, at Joliet, is kept by a veteran baker. A sprightly young traveler complained of one his pies the other day. The old man became angry. "Young man," he said severely, "I made pies before you were born." "Yes," responded the traveler; "I guess this must be one of those same pies." — [Cheek.]

IN BRIEF.

J. G. Coboe returned from his Oregon trip yesterday.

Sheriff D. J. Robb, of Esmeralda county, was in town yesterday.

Albion has levied an assessment of fifty cents per share.

Bob Howland, formerly Warden of our State Prison, is building an elegant residence in San Francisco.

J. M. Hetrich, Mint Assayer, has a rare and interesting collection of old coins.

The town is being billed for Neil Burgess' "Vim" Company, who appear at the Opera House on the 31st instant.

Quartz mills along the Carson river are hanging up stamps, as the water is getting very low.

The family of T. R. Hofer leave for the Lake to-morrow, and will remain at McKinney's for a couple of weeks.

District Attorney Torreyson says that no time nor place has yet been decided upon for the third trial of Jim Combs.

After August 1st round trip tickets will be issued from Reno to San Francisco at \$22 35, to be good until October 31st.

The Carson jeansmen are not very particular—they get their hair clipped and short in the various stables with horse clippers.

General H. Day, U. S. A., left here last night for Reno, and this morning he departed for New York City, his old home.

H. W. Sharp, Mrs. J. W. Sharp and Miss Hattie Sharp left yesterday morning at 4 o'clock for a camping trip to Hope Valley and Twin Lakes.

Hon. Horatio C. Burchard, Director of the Mint, left for Southern Nevada yesterday morning. Before returning to Washington, he will take in Montana, Idaho and Oregon.

George W. Bryant returned from California yesterday. He visited General John Day, formerly a resident here, at Santa Monica. The General is in excellent health, but his orange grove venture has proven a complete failure.

Will U. Mackay, the printer, returned here yesterday. He says that he has had all in his that he wants in the Sandwich Islands. Honolulu is a beastly place, the weather very hot and no white man is justified in living there unless he is making cords of money.

Parties coming from McKinney's, Lake Tahoe, say that a degree of social equality exists up there that is quite refreshing. No noses turned up on the promenade, and no little refined sarcastic cuts are met with. It is a sort of "hail fellow, well met" place.

Henry Sharp, of the Ormsby House, has a phenomenal boy three years of age; he demands his face to be washed and his hair brushed about forty times per diem. Other boys at his age are horrified at the sight of water and a comb and brush.

R. Doble and C. S. Batchelder, of San Francisco, were registered at the Ormsby House yesterday. They were traveling afoot, taking in the Comstock, Lake Tahoe, Yosemite, and all other points of interest. They appear to be young men who could well afford to travel first-class, but they are temporarily cranks upon the subject of "hoofing" it.
